There is other colors also used which you can check in the below designs which I have generated, just to check the final look of the UI design elements, the Landing Page & the Dashboard Design.

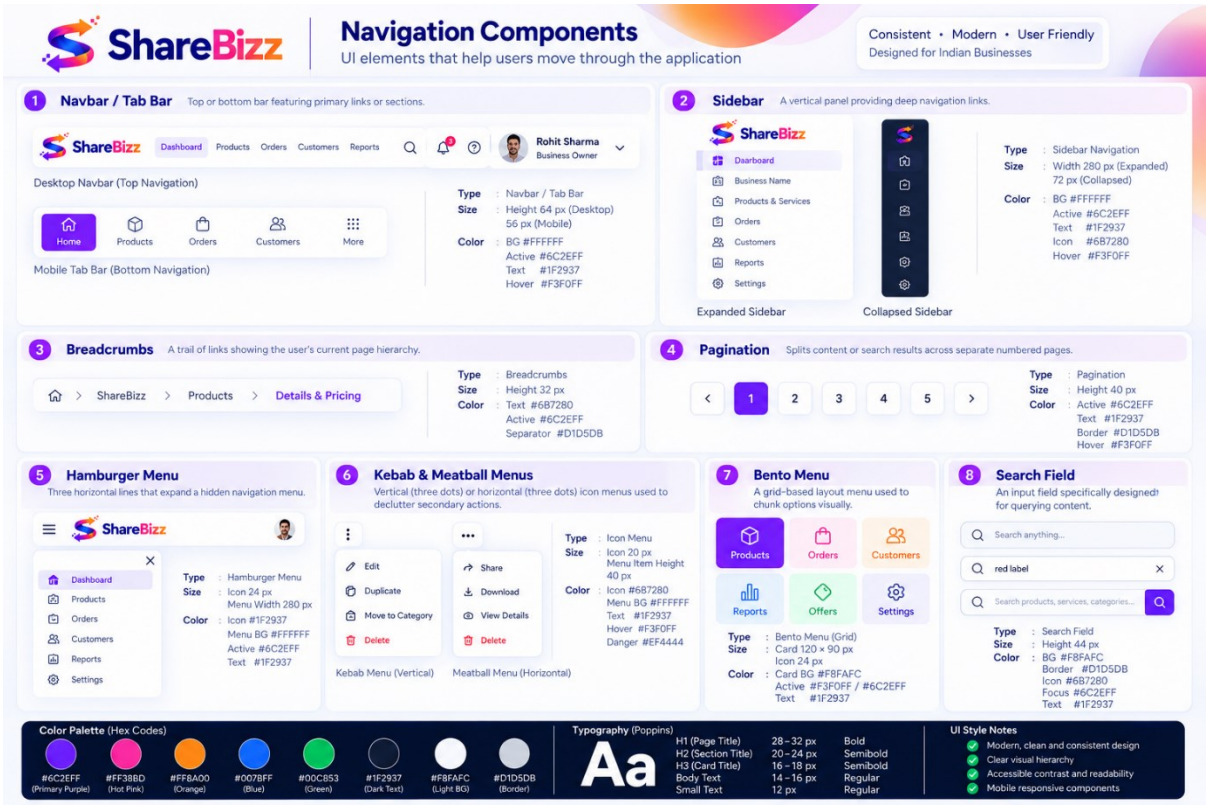

Font Name – Poppins

We are using Tailwind css to design all the UI design elements of ShareBizz website (Frontend & Backend).

1) UI Input Controls Designs

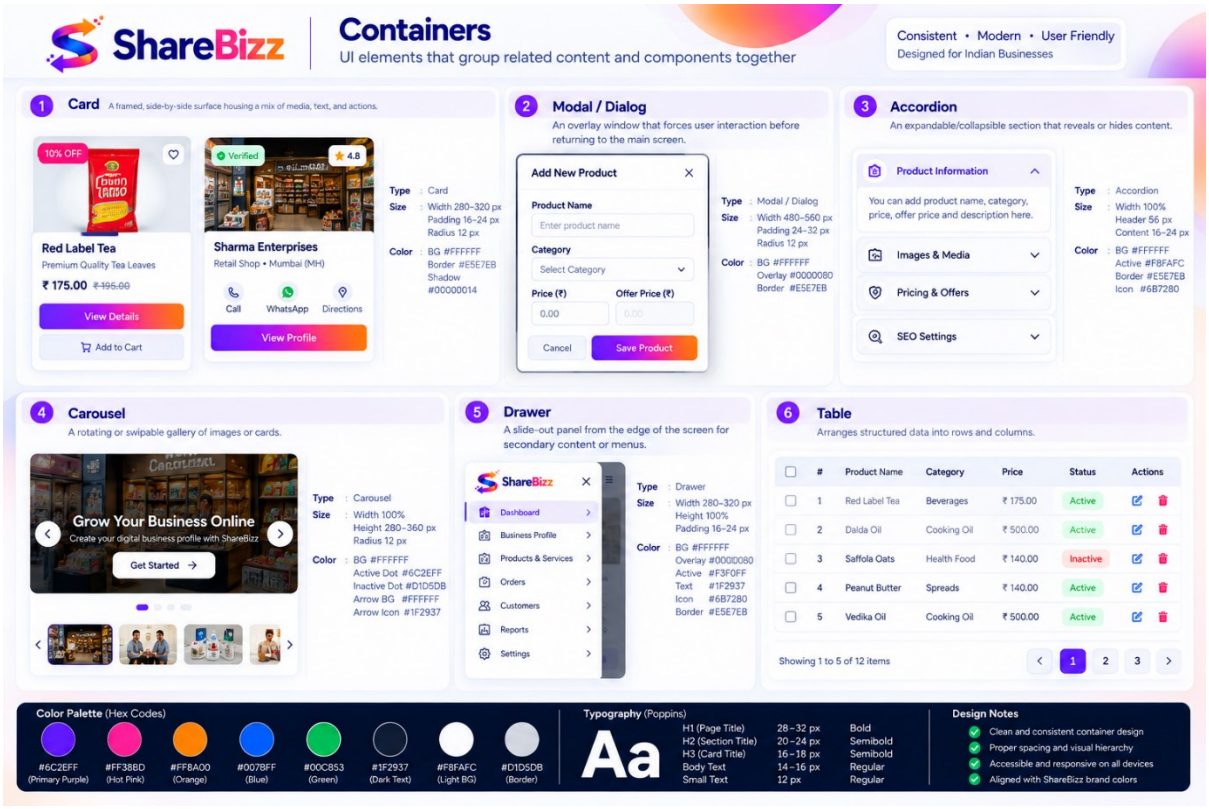

2) Navigation Components Designs

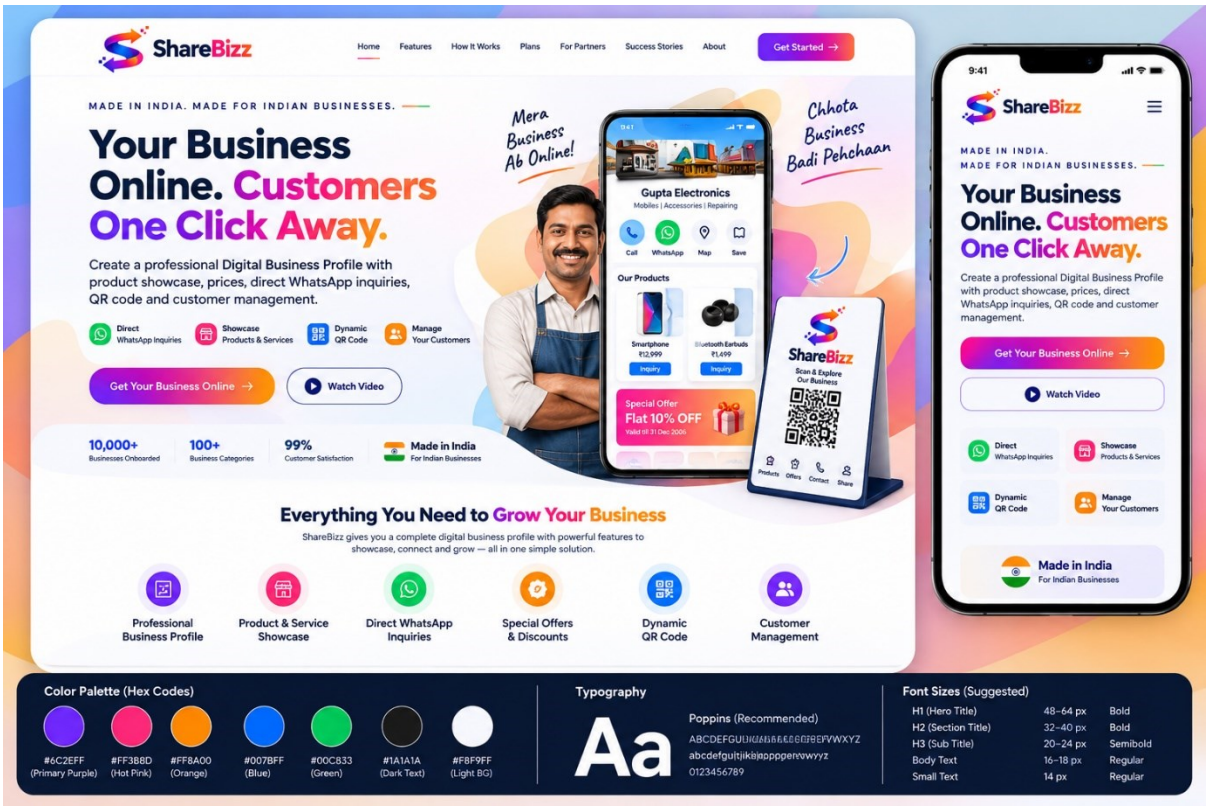

3) Informational Components

4) Containers Design

5) Landing Page (Dummy)

6) Dashboard Design
